News from the Principal

Check out the latest Every Day Counts videos on DETE TV. They have been created to highlight the importance of 100% school attendance. A child who misses one day of school per week misses two months of schooling a year.

Unexplained Absences

Last week attendance letters were sent home to assist the school in maintaining our class rolls. Classroom teachers need to record the reasons why children are away for each absence. If you got an unexplained absence letter please return this ASAP so that we can finalise our absence information prior to printing report cards.

Please use the attached slip to return to your child's classroom teacher. As the weather gets cooler and our children pick up bugs it is important that

teachers stay informed of absences. When children are away they need to plan to catch up the lessons that were missed. Thank you for supporting our attendance policy. A copy of our attendance policy is available on our school website. Here is the link for your information:-

2/3/4 NEWS

Geography:

In the 2/3/4 class we are learning about states and territories in Australia as well as its landforms, geographical features and capital cities.

Our Place in Space

We have been learning and drawing about our place in space. It begins at our bedroom which is in our house that's in our street in Queensland. Queensland is in our country. Our country is on our planet Earth and Earth is part of our Solar System.

We hope you enjoy hearing about what the 2/3/4 class has been learning.

By Madison and Hannah

In Maths, the 2/3/4 class are learning about 3D shapes and Symmetry. In 3D shapes, we chose a shape that we liked then used it to print out the faces to make its net shape. When it was dry, we tried to fold it so the shape won't be 2D; it would be 3D. Then we glued it into our Maths books and wrote about if it worked or not.

When we started Symmetry, Mrs Stenzel drew our initials and then we cut it out, coloured it in and folded it.
